Unit is designed for a maximum of 5 children between the age of 3 to 8 years old on the motion rides.

Maximum weight per user is 100 lbs each.

⚠️ WARNING

Please read this instruction manual before you start with the assembly or use this swing set. You must follow all safety instructions while using this equipment; be absolutely sure that the surface, on which this swing set is set up on, is properly surfaced with fine sand, wood chips or double shredded bark mulch. Do not use this swing set on hard pack soil, concrete or any kind of hard surface. Read all cautionary statement on page 1 - page 4, before using this equipment.

M-F, 9AM TO 5PM, PACIFIC TIME
WARNING CAUTION!
READ BEFORE USING THIS EQUIPMENT

GENERAL INSTRUCTION

- Read this manual and follow all instructions before using and assembling this unit.
- Observing the following statements and warnings reduces the likelihood of serious fatal injury.
- Recommending On-site adult supervision for children of all ages at all times.
- This unit is designed to be used safely by up to 5 children between the age of 3 to 8, with a maximum weight of 100 pounds (45.4 kgs) each, simultaneously, not to exceed a combined weight of 500 pounds (227kgs).

WARNING Lawn swings is designed for use by children over three years of age. Use by children under the age of three can result in entrapment between the seat and back areas. NEVER place children in rearward facing position or with legs between the seat and backrest because the child’s body may pass through the opening causing entrapment of the child’s head.

WARNING This unit must be assembled and disassembled by a capable adult person. We suggest that you get someone to help.

WARNING Children must not use the equipment until properly assembled and anchored.

WARNING Always locate the swing set on level ground!

WARNING Do not allow swing set near any obstruction or sharp object! Place gym set on level ground, not less than 6ft (1.8m) from any structures or obstacles such as fence, garage, shed house, overhanging branches, laundry line, electrical wires.

WARNING If the seats of swing, glide or slide are wet, do not use this equipment.

WARNING If any bolts & nuts are missing, do not use this equipment!

WARNING A capable adult should supervise the use of this equipment at all times. Do not allow reckless playing, such as jumping off swing, slide, or glide ride.

- Provide proper surface material cover for this equipment prior to using this equipment. See page 3 of this manual for more information.

WARNING Do not allow more than one child to play on the swing, trapeze bar or slide at any one time. Children shall take turns using the slide.

WARNING If the child has any physical condition that may affect his/her ability to use this equipment, one shall consult a physician, before allowing the child to use this equipment.

WARNING Do not allow child over the weight limit to use this equipment. Adults should never ride on any of the rides, swing, trapeze or slide.

WARNING Do not allow child to stand on the swing seats or glide ride.

WARNING Instruct children not to walk too close in front of, behind, or between moving items. Instruct children to keep a safe distance away to avoid being struck by items in play.

WARNING Instruct children not to twist swing chains or ropes or loop them over the top support bar since this may reduce the strength of the chain or rope.

WARNING Instruct children to avoid swinging empty play items.

WARNING Teach children to sit in the center of the swing play items, with their full weight in the seats.

WARNING Instruct children not to use the equipment in any manner other than intended.
WARNING Instruct children not to get off equipment while it is in motion. Do not allow children to jump from moving play items.

WARNING Parent to dress children appropriately while on and around this equipment (Examples would include the use of well fitting shoes and the avoidance of ponchos, scarves, jewelry and other loose fitting clothing that is potentially hazardous while using equipment).

WARNING Do not allow children to climb or play on equipment when it is wet.

WARNING Do not stand on the lawn swing when using this ride. One child per seat only!

WARNING Check the openings between rollers and sliding surfaces of roller slides for foreign materials that could be potentially hazardous to users.

• Please verify that suspended climbing ropes, chain, or cable are secured at both ends, and verify that suspended climbing ropes, chain, or cable cannot be looped back on itself.

WARNING Instruct children not to attach items to the playground equipment that are not specifically designed for use with the equipment such as but not limited to jump ropes, clothesline, pet leashes, cables and chain as they may cause a strangulation hazard.

• It is recommended that the gym set be placed in concrete. Be certain that all anchoring devices (including concrete) are placed below the level of the playing surface or below ground level to prevent tripping.

WARNING Do not allow children to lean to the side when riding on other rides, structural members on collide with other playmates.

WARNING Do not install home playground equipment over concrete, asphalt, packed earth, grass, carpet, or any other hard surface. A fall onto a hard surface can result in serious injury to the equipment user.

WARNING Do anchor all gyms.

WARNING If the swing set is set up on grounds with sandy soil condition, it must be anchored with concrete footing (concrete not included).

OPERATING INSTRUCTIONS (WARNING THE BUYER)

• Observing the following statements and warnings reduces the likelihood of serious or fatal injury.
• This unit is designed to be used safely by up to 5 children between the age of 3 to 8, with a maximum weight of 100 pounds (45.4 kgs) each, simultaneously, not to exceed a combined weight of 500 pounds (227kgs).
• On-site adult supervision for children of all ages is recommended.

WARNING Instruct children not to walk close to, in front of, behind, or between moving items.

WARNING Instruct children not to twist swing chains or ropes or loop them over the top support bar since this may reduce the strength of the chain or rope.

WARNING Instruct children to avoid swinging empty seats.

WARNING Teach children to sit in the center of the swings with their full weight on the seats,

WARNING Instruct children not to use the equipment in a manner other than intended.

WARNING Instruct children not to get off equipment while it is in motion.

WARNING Adult should dress children appropriately (examples would include the use of well-fitting shoes and the avoidance of ponchos, scarfs, and other loose-fitting shoes and other loose-fitting clothing that is potentially hazardous while using equipment).

WARNING Instruct children not to climb when the equipment is wet.
WARNING Please verify that suspended climbing ropes, chain, or cable are secured at both ends, and that suspended climbing ropes, chain, or cable cannot be looped back on itself.

WARNING Instruct children not to attach items to the playground equipment that are not specifically designed for use with the equipment, such as, but not limited to, jump ropes, clothesline, pet leashes, cables and chain as they may cause a strangulation hazard.

WARNING Lawn swings, if applicable, are designed for use by children three years of age and older. The use by children under the age of three can result in entrapment between the seat and back rest because the child’s body may pass through the opening, causing entrapment of the child’s head. Such entrapment may result in strangulation. NEVER place children in a rearward facing position or with legs between the seat and backrest.

WARNING Instruct children not to go down slide head first.

WARNING Check slide bed for extreme heat before letting children use slide (when exposed to direct sunlight).

WARNING Do not allow children to climb on swing from structural members (legs, top bar and chin bar). These are structural components only and NOT play features.

- If there is any cracked or damaged parts, do not use this equipment; call the 866-370-2131 number for replacement part.
- Please save this instruction manual for future reference and review each season.
- Plastic components should be replaced every three years.
TIGHTENING NUTS & BOLTS

- At the start of assembling, do not tighten bolt/nut all the way, so to allow some possible adjustment, for ease of installation.
- After all major components are assembled, go back over all bolts and nuts and properly tighten all of them before using this product.

CARE & MAINTENANCE INSTRUCTION

- Check all nuts and bolts twice monthly during the usage season for tightness and tighten as required. It is particularly important that this procedure be followed at the beginning of each season.
- Oil all metallic moving parts monthly during the usage period.
- Sand rusted areas on metal tubing and repaint using a nonlead-based paint meeting the requirements of Title 16 CFR Part 1303.
- Check swing seats, ropes, cables and chains monthly during usage season for evidence of deterioration. Replacement should be made in accordance with manufacturer’s instructions.
- Check all coverings for bolts and sharp edges twice monthly during usage season to be certain they are in place. Replace when necessary. It is especially important to do this at the beginning of each new season.
- Remove plastic swing seats slide and take indoors or do not use when temperature drops below 32 degrees F (0 degrees C).

Disposal Instructions

- Please use with care to disassemble the unit, when it is no longer in operational condition. Wear heavy duty working gloves!
- Consumer may wish to recycle the steel tubing, please take the frame to your local recycling center.
- Be sure to completely disassemble the whole swing and slide sets, before disposal.
- Do not leave partially disassembled equipment in area where accessible by children.
- All plastic parts could be recycled, take it to your local recycling center.
- All rusted parts, bolts shall be properly disposed of in trash bin. Do not reuse.
- Do not let children play with any disassembled parts destined for disposal, such as chain, slide, tubings, bolts, nuts, screws!
IMPORTANT

CONSUMER INFORMATION SHEET

The Consumer Product Safety Commission estimates that about 100,000 playground equipment-related injuries resulting from falls to the ground equipment treated annually in U.S. hospital emergency rooms. Injuries involving this hazard pattern tend to be among the most serious of all playground injuries, and have the potential to be fatal, particularly when the injury is to the head.

The surface under and around playground equipment can be a major factor in determining the injury-causing potential of a fall. It is self evident that a fall onto a shock absorbing surface is less likely to cause a serious injury than a fall onto a hard surface. Playground equipment should never be placed on hard surfaces such as concrete or asphalt and while grass may appear to be acceptable it may quickly turn to hard packed earth in areas of high traffic. Shredded bark mulch, wood chips fine sand or fine gravel are considered to be acceptable shock absorbing surface when installed and maintained at a sufficient depth under and around playground equipment.

Table below lists the maximum height from which a child would not be expected to sustain a life-threatening head injury in a fall onto four different loose-fill surfacing materials if they are installed and maintained at depths of 6, 9, and 12 in.

<table>
<thead>
<tr>
<th>TYPE OF MATERIAL</th>
<th>6INCH DEPTH</th>
<th>9INCH DEPTH</th>
<th>12INCH DEPTH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Double shredded bark mulch</td>
<td>6</td>
<td>10</td>
<td>11</td>
</tr>
<tr>
<td>Wood Chips</td>
<td>6</td>
<td>7</td>
<td>12</td>
</tr>
<tr>
<td>Fine Sand</td>
<td>5</td>
<td>5</td>
<td>9</td>
</tr>
<tr>
<td>Fine Gravel</td>
<td>6</td>
<td>7</td>
<td>10</td>
</tr>
</tbody>
</table>

However, it should be recognized that all injuries due to falls can not be prevented no matter what surfacing material is used.

We recommend that a shock absorbing material should extend a minimum of 6ft in all directions from the perimeter of stationary equipment such as climbers and slides. However, because children may deliberately jump from a moving swing, The shock absorbing material should extend in the front and rear of a swing a minimum distance of 2 times the height of the pivot point measured from a point directly beneath the pivot on the supporting structure.

This information is intended to assist in comparing the relative shock-absorbing properties of various materials. No particular material is recommended over another. However, each material is only effective when properly maintained. Materials should be checked periodically and replenished to maintain correct depth as determined necessary for your equipment. The choice of a material depends on the type and height of the playground equipment, the availability of the material in your area and its cost.

Note: The maximum fall height for this product is 6 feet. The minimum ground clearance between the bottom of the suspended plays and the playing or ground service must be 8 inches.

![Diagram of playground equipment with minimum ground clearance indicated]
TOOLS NEEDED

Please prepare the following tools prior to assembling this equipment.

- Special Socket Wrench (included)
- wrench (included)
- wrench (included)
- Small Allen Wrench (included)
- Big Allen Wrench (included)

ASSEMBLY INSTRUCTION

✧ Place the playground equipment on level ground, not less than 6 ft (1.8 m) from any structure or obstruction such as a fence, garage, house, overhanging branches, laundry lines, or electrical wires.

✧ Do not install the playground equipment over concrete, asphalt, packed earth, or any other hard surface. A fall onto a hard surface can result in serious injury to the user.

TIGHTENING NUTS & BOLTS

✧ Do not over-tighten the nuts and bolts when you are assembling your playground equipment. This will allow for some possible adjustments and ease of installation.

✧ Once you have finished the assembly of the playground equipment, go back over all of the nuts and bolts and properly tighten all of them before using the playground equipment.

Main frame layout
STEP 1

- Insert A1 into A2, secure B1, B5, B4, B3.

HINT: Please make sure that concave holes face down and round holes face up.
STEP 2

- Insert small end of A3 into the socket at the end of A1. Align holes on them.
- Secure with B1, B5, B4 and B3.
- Then attach the other two pieces of A3 on the other side to A2 the same way.

STEP 3

- Insert small end of A4 into A3, align holes on them.
- Secure with B1, B5, B4 and B3.
- Attach A5 to outside A4.
- Secure with B2, B6, B4 and B3.
- Repeat above to assembly the other A6 to A4 that is attached to the end of A2.
Swing Seats Assembly

Step 4

- Insert J3 (which is pre-assembled with J1 and J3) into holes on A2.
- Secure it with J8, J6.

Step 5

- Attach J3 to K1.
- Secure with J7, J9 and J6.
- Repeat for remaining one swing.
STEP 6
Glide Ride Assembly

- Attach L4, L3 and L5 to A2 as shown.
- Secure with N3 and N7.
- Use special socket wrench and screwdriver to tighten the N3 and N7.

STEP 7

- Attach M5 to the bottom of L1-N (straight side).
- Secure with N4 and N12.
- Attach M1 to the top of L1-N, then align holes on M1 and L1-N.
- Hold M2 after inserting it into holes of M1.
- Repeat for remaining section hanger.
STEP 8

- Attach L1-N to L4, secure with N2, and N10.

STEP 9

- Insert M3 into L2-N (if no pre-assembled), then attach to L2-N with N5, lightly secure N5 with N11, N8. Do not tighten completely.
- Attach the other L1-N and L2-N by as the way as described above, once this is done, go back and securely tighten all N8.
Step 10

- Attach M4 to L2-N, secure with N1, N6, and N9.
NOTE:
1. DO NOT OVER-TIGHTEN THE NUTS AND BOLTS AT EVERY STEP.
2. DO NOT SNAP IN THE COVER OF PLASTIC CAP UNTIL YOU HAVE FINISHED THE ASSEMBLY OF EACH STEP AND GO BACK TIGHTEN ALL OF THE NUTS AND BOLTS.

Slide Assembly

Step 11

- Attach X5-N to Y2
- Secure using Z6 and Z1
- Attach X4-N to Y2

*Note: Make sure that the bolt holes face up*
NOTE:
1. DO NOT OVER-TIGHTEN THE NUTS AND BOLTS AT EVERY STEP.
2. DO NOT SNAP IN THE COVER OF PLASTIC CAP UNTIL YOU HAVE FINISHED THE ASSEMBLY OF EACH STEP AND GO BACK TIGHTEN ALL OF THE NUTS AND BOLTS.

Step 12
- Attach X6 to X1-N and X2-N
- Secure each side using Z1, Z6 and Z4
- Attach X3-N to X1-N and X2-N
- Align holes and hold in position

Step 13
- Insert the end of X4-N into X1-N, secure using Z1, Z6, Z3 and Z5: in the same way, fix the other end of X4-N with X2-N.
- Insert Z2 into Z6 and insert into X1-N, X2-N and X3-N as shown.
- Secure with Z6 and Z4.
NOTE:
1. DO NOT OVER-TIGHTEN THE NUTS AND BOLTS AT EVERY STEP.
2. DO NOT SNAP IN THE COVER OF PLASTIC CAP UNTIL YOU HAVE FINISHED THE ASSEMBLY OF EACH STEP AND GO BACK TIGHTEN ALL OF THE NUTS AND BOLTS.

Step 14

Attach Y1 to X1-N and A7, secure using Z7, Z6 and Z3, Z5.

NOTE: Make sure to go back to check all hardware and securely tighten all bolts and nuts before using the playground equipment.

! WARNING: Do not let children use the playground equipment until it is properly assembled and anchored.
OPTIONAL ANCHORS

(NOTE: ANCHORS ARE NOT INCLUDED, SOLD SEPARATELY)

By anchoring your set with Ground Anchors, you will be able to move your gym set at a future date. Either method is suitable for hard soil (clay, etc.). If your soil is soft (sand, etc.), the corkscrew method is recommended. If you wish to permanently secure your gym set, either type of anchor may set in concrete. Ensure equipment is cemented, do not bury the legs more space remains under the swinging plays. Be certain that all anchoring surface or below ground level to prevent tripping.

Corkscrew Anchors is not included

Be sure the swinging set is located on level ground.
Turn the corkscrew anchor into the ground until only the hooked end is above the ground next to the leg.
Insert the hooked end into the bottom opening of the leg.
Ensure that the hooked end is secure in the leg opening.

NOTE: ANCHORING, ANCHOR SOLD SEPARATELY

- Anchoring in concrete should be done for this swing set if it is not possible.
  In order to strengthen the stability of this equipment, we strongly recommend consumers anchor this playset before using. Anchors not included in this package. You may purchase the anchors in the newest department store.
- If the swing set is set up on grounds with sandy soil condition, it must be anchored with concrete footing (concrete not included)
- Be sure the swing set is located in level ground
- Dig holes around swing leg tube as shown below in drawing. As you dig down and create a larger diameter hole bottom
- Place 2 inches brick or gravel bed as shown in drawing below
- Use about 451b of concrete per leg
- Cover concrete with dirt and protective surface material
- Allow about 6-7 days for concrete to dry properly
Note: The maximum fall height for this product is 6 feet. The minimum ground clearance between the bottom of the suspended plays and the playing or ground service must be 8 inches.

WARNING

PLEASE BURIED THE LEGS OF THE SWING SET AS PER INSTRUCTION OR PURCHASE THE OPTIONAL ANCHOR. IF THE SWING SET IS USED WITHOUT PROPER ANCHORING, IT MAY BE DANGEROUS AND MAY TILT OVER.
MANUFACTURER'S LIMITED WARRANTY

SPORTSPower LTD. Warrants its GYM products for (180) days against defects in material, workmanship and rust painted parts which compromises the structural integrity of the product when used for the purpose intended, normal conditions, and provided it receives proper care and maintenance. Surface rust is not covered under warranty.

This warranty coverage extends only to the original purchaser with a receipt and non-transferable. All products for which a warranty claim is made must be received by SPORTspower's authorized service center, freight prepaid, and accompanied by sufficient proof of purchase during the warranty period.

This limited Warranty does not cover our products which: fail due to (1) normal wear; (2) abuse and neglect; (3) improper maintenance; (4) unauthorized repairs or alterations; or (5) are used for commercial or other income producing purposes; or (6) accidents and misuse.

All warranty repairs must be authorized by SPORTspower Customer service before repairs are made.

IMPORTANT: A missing part is not considered the same thing as a defective part or unit. If a part is missing, there is no need to return the entire unit to the store. In order to obtain fast replacement parts or service as provided by this warranty, please call the number below.

GENERAL INSTRUCTION

- Read this manual and follow all instructions before using and assembling this unit.
- Observing the following statements and warnings reduces the likelihood of serious fatal injury.
- Recommending On-site adult supervision for children of all ages at all times.
- This unit is designed to be used safely by up to 6 children between the age of 3 to 8, with a maximum weight of 100 pounds (45.4 kgs) each, simultaneously, not to exceed a combined weight of 600 pounds (272kgs).

**WARNING** Lawn swings is designed for use by children over three years of age. Use by children under the age of three can result in entrapment between the seat and back area. NEVER place children in rearward facing position or with legs between the seat and backrest because the child’s body may pass through the opening causing entrapment of the child’s head.

**WARNING** This unit must be assembled and disassembled by a capable adult person.
We suggest that you get someone to help.

**WARNING** Children must not use the equipment until properly assembled and anchored.

**WARNING** Always locate the swing set on level ground!

**WARNING** Do not allow swing set near any obstruction or sharp object! Place gym set on level ground, not less than 6ft (1.8m) from any structures or obstacles such as fence, garage, shed house, overhanging branches, laundry line, electrical wires.

**WARNING** If the seats of swing, glide or slide are wet, do not use this equipment.

**WARNING** If any bolts & nuts are missing, do not use this equipment!

**WARNING** A capable adult should supervise the use of this equipment at all times. Do not allow reckless playing, such as jumping off swing, slide, or glide ride.

- Provide proper surface material cover for this equipment prior to using this equipment. See page 3 of this manual for more information.

**WARNING** Do not allow more than one child to play on the swing, trapeze bar or slide at any one time. Children shall take turns using the slide.

**WARNING** If the child has any physical condition that may affect his/her ability to use this equipment, one shall consult a physician, before allowing the child to use this equipment.

**WARNING** Do not allow child over the weight limit to use this equipment. Adults should never ride on any of the rides, swing, trapeze or slide.

**WARNING** Do not allow child to stand on the swing seats or glide ride.

**WARNING** Instruct children not to walk too close in front of, behind, or between moving items. Instruct children to keep a safe distance away to avoid being struck by items in play.

**WARNING** Instruct children not to twist swing chains or ropes or loop them over the top support bar since this may reduce the strength of the chain or rope.

**WARNING** Instruct children to avoid swinging empty play items.

**WARNING** Teach children to sit in the center of the swing play items, with their full weight in the seats.

**WARNING** Instruct children not to use the equipment in any manner other than intended.
**WARNING** Instruct children not to get off equipment while it is in motion. Do not allow children to jump from moving play items.

**WARNING** Parent to dress children appropriately while on and around this equipment (Examples would include the use of well fitting shoes and the avoidance of ponchos, scarves, jewelry and other loose fitting clothing that is potentially hazardous while using equipment).

**WARNING** Do not allow children to climb or play on equipment when it is wet.

**WARNING** Do not stand on the lawn swing when using this ride. One child per seat only!

**WARNING** Check the openings between rollers and sliding surfaces of roller slides for foreign materials that could be potentially hazardous to users.

- Please verify that suspended climbing ropes, chain, or cable are secured at both ends, and verify that suspended climbing ropes, chain, or cable cannot be looped back on itself.

**WARNING** Instruct children not to attach items to the playground equipment that are not specifically designed for use with the equipment such as but not limited to jump ropes, clothesline, pet leashes, cables and chain as they may cause a strangulation hazard.

- It is recommended that the gym set be placed in concrete. Be certain that all anchoring devices (including concrete) are placed below the level of the playing surface or below ground level to prevent tripping.

**WARNING** Do not allow children to lean to the side when riding on other rides, structural members on collide with other playmates.

**WARNING** Do not install home playground equipment over concrete, asphalt, packed earth, grass, carpet, or any other hard surface. A fall onto a hard surface can result in serious injury to the equipment user.

**WARNING** Do anchor all gyms.

**WARNING** If the swing set is set up on grounds with sandy soil condition, it must be anchored with concrete footing (concrete not included).

**OPERATING INSTRUCTIONS**  **(WARNING THE BUYER)**

- Observing the following statements and warnings reduces the likelihood of serious or fatal injury.

- This unit is designed to be used safely by up to 5 children between the age of 3 to 8, with a maximum weight of 100 pounds (45.4 kgs) each, simultaneously, not to exceed a combined weight of 500 pounds (227kgs).

- On-site adult supervision for children of all ages is recommended.

**WARNING** Instruct children not to walk close to, in front of, behind, or between moving items.

**WARNING** Instruct children not to twist swing chains or ropes or loop them over the top support bar since this may reduce the strength of the chain or rope.

**WARNING** Instruct children to avoid swinging empty seats.

**WARNING** Teach children to sit in the center of the swings with their full weight on the seats.

**WARNING** Instruct children not to use the equipment in a manner other than intended.

**WARNING** Instruct children not to get off equipment while it is in motion.

**WARNING** Adult should dress children appropriately (examples would include the use of well-fitting shoes and the avoidance of ponchos, scarfs, and other loose-fitting shoes and other loose-fitting clothing that is potentially hazardous while using equipment).

**WARNING** Instruct children not to climb when the equipment is wet.
**WARNING** Please verify that suspended climbing ropes, chain, or cable are secured at both ends, and that suspended climbing ropes, chain, or cable cannot be looped back on itself.

**WARNING** Instruct children not to attach items to the playground equipment that are not specifically designed for use with the equipment, such as, but not limited to, jump ropes, clothesline, pet leashes, cables and chain as they may cause a strangulation hazard.

**WARNING** Lawn swings, if applicable, are designed for use by children three years of age and older. The use by children under the age of three can result in entrapment between the seat and backrest because the child’s body may pass through the opening, causing entrapment of the child’s head. Such entrapment may result in strangulation. NEVER place children in a rearward facing position or with legs between the seat and backrest.

**WARNING** Instruct children not to go down slide head first.

**WARNING** Check slide bed for extreme heat before letting children use slide (when exposed to direct sunlight).

**WARNING** Do not allow children to climb on swing from structural members (legs, top bar and chin bar). These are structural components only and NOT play features.

- If there is any cracked or damaged parts, do not use this equipment; call the 866-370-2131 number for replacement part.
- Please save this instruction manual for future reference and review each season.
- Plastic components should be replaced every three years.
TIGHTENING NUTS & BOLTS

- At the start of assembling, do not tighten bolt/nut all the way, so to allow some possible adjustment, for ease of installation.
- After all major components are assembled, go back over all bolts and nuts and properly tighten all of them before using this product.

CARE & MAINTENANCE INSTRUCTION
- Check all nuts and bolts twice monthly during the usage season for tightness and tighten as required. It is particularly important that this procedure be followed at the beginning of each season.
- Oil all metallic moving parts monthly during the usage period.
- Sand rusted areas on metal tubing and repaint using a non-lead-based paint meeting the requirements of Title 16 CFR Part 1303.
- Check swing seats, ropes, cables and chains monthly during usage season for evidence of deterioration. Replacement should be made in accordance with manufacturer’s instructions.
- Check all coverings for bolts and sharp edges twice monthly during usage season to be certain they are in place. Replace when necessary. It is especially important to do this at the beginning of each new season.
- Remove plastic swing seats slide and take indoors or do not use when temperature drops below 32 degrees F (0 degrees C).

Disposal Instructions
- Please use with care to disassemble the unit, when it is no longer in operational condition.
  Wear heavy duty working gloves!
- Consumer may wish to recycle the steel tubing, please take the frame to your local recycling center.
- Be sure to completely disassemble the whole swing and slide sets, before disposal.
- Do not leave partially disassembled equipment in area where accessible by children.
- All plastic parts could be recycled, take it to your local recycling center.
  All rusted parts, bolts shall be properly disposed of in trash bin. Do not reuse.
- Do not let children play with any disassembled parts destined for disposal, such as chain, slide, tunings, bolts, nuts, screws!
CONSUMER INFORMATION SHEET

The Consumer Product Safety Commission estimates that about 100,000 playground equipment-related injuries resulting from falls to the ground equipment treated annually in U.S. hospital emergency rooms. Injuries involving this hazard pattern tend to be among the most serious of all playground injuries, and have the potential to be fatal, particularly when the injury is to the head.

The surface under and around playground equipment can be a major factor in determining the injury-causing potential of a fall. It is self-evident that a fall onto a shock absorbing surface is less likely to cause a serious injury than a fall onto a hard surface. Playground equipment should never be placed on hard surfaces such as concrete or asphalt and while grass may appear to be acceptable it may quickly turn to hard packed earth in areas of high traffic. Shredded bark mulch, wood chips, fine sand or fine gravel are considered to be acceptable shock absorbing surface when installed and maintained at a sufficient depth under and around playground equipment.

Table below lists the maximum height from which a child would not be expected to sustain a life-threatening head injury in a fall onto four different loose-fill surfacing materials if they are installed and maintained at depths of 6, 9, and 12 in.

<table>
<thead>
<tr>
<th>TYPE OF MATERIAL</th>
<th>6 INCH DEPTH</th>
<th>9 INCH DEPTH</th>
<th>12 INCH DEPTH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Double shredded bark mulch</td>
<td>6</td>
<td>10</td>
<td>11</td>
</tr>
<tr>
<td>Wood Chips</td>
<td>6</td>
<td>7</td>
<td>12</td>
</tr>
<tr>
<td>Fine Sand</td>
<td>5</td>
<td>5</td>
<td>9</td>
</tr>
<tr>
<td>Fine Gravel</td>
<td>6</td>
<td>7</td>
<td>10</td>
</tr>
</tbody>
</table>

However, it should be recognized that all injuries due to falls can not be prevented no matter what surfacing material is used.

We recommend that a shock absorbing material should extend a minimum of 6 ft in all directions from the perimeter of stationary equipment such as climbers and slides. However, because children may deliberately jump from a moving swing. The shock absorbing material should extend in the front and rear of a swing a minimum distance of 2 times the height of the pivot point measured from a point directly beneath the pivot on the supporting structure.

This information is intended to assist in comparing the relative shock-absorbing properties of various materials. No particular material is recommended over another. However, each material is only effective when properly maintained. Materials should be checked periodically and replenished to maintain correct depth as determined necessary for your equipment. The choice of a material depends on the type and height of the playground equipment, the availability of the material in your area and its cost.

Note: The maximum fall height for this product is 6 feet. The minimum ground clearance between the bottom of the suspended plays and the playing or ground service must be 8 inches.

YOU MUST MAINTAIN A MINIMUM OF 8 INCHES OF GROUND CLEARANCE

This information has been extracted from the CPSC publication on "Playground Safety". You can obtain more information by sending a postcard to the: Office of public Affairs, U.S. Consumer Product Safety Commission, Washington, D.C. 20207.
TOOLS NEEDED

Please prepare the following tools prior to assembling this equipment.

Special socket wrench (included)

wrench (included)

ASSEMBLY INSTRUCTION

- Place the playground equipment on level ground, not less than 6 ft (1.8m) from any structure or obstruction such as a fence, garage, house, overhanging branches, laundry lines, or electrical wires.
- Do not install the playground equipment over concrete, asphalt, packed earth, or any other hard surface. A fall onto a hard surface can result in serious injury to the user.

TIGHTENING NUTS & BOLTS

* Do not over-tighten the nuts and bolts when you are assembling your playground equipment. This will allow for some possible adjustments and ease of installation.
* Once you have finished the assembly of the playground equipment, go back over all of the nuts and bolts and properly tighten all of them before using the playground equipment.

Main frame layout
STEP 1

➢ Insert A1 into A2, secure B1, B5, B4, B3.

HINT: Please make sure that concave holes face down and round holes face up.
STEP 2
➢ Insert small end of A3 into the socket at the end of A1, align holes on them.
➢ Secure with B1, B5, B4 and B3.
➢ Then attach the other two pieces of A3 on the other side to A2 the same way.

STEP 3
➢ Insert small end of A4 into A3, align holes on them.
➢ Secure with B1, B5, B4 and B3.
➢ Attach A5 to outside A4.
➢ Secure with B2, B6, B4 and B3.
➢ Repeat above to assembly the other A6 to A4 that is attached to the end of A2.
Swing seats Assembly

STEP 4

- Insert J3 (which is pre-assembled with J1 and J3) into holes on A2.
- Secure it with J8, J6.

STEP 5

- Attach J3 to K1.
- Secure with J7, J9 and J6.
- Repeat for remaining one swing.
STEP 6
Glide Ride Assembly

➤ Attach L4, L3 and L5 to A2 as shown.
➤ Secure with N3 and N7.
➤ Use special socket wrench and screw driver to tighten the N3 and N7.

STEP 7

➤ Attach M5 to the bottom of L1-N (straight side).
➤ Secure with N4 and N12.
➤ Attach M1 to the top of L1-N, then align holes on M1 and L1-N.
➤ Hold M2 after inserting it into holes of M1.
➤ Repeat for remaining section hanger.
STEP 8

➢ Attach L1-N to L4, secure with N2, N8, N10.

STEP 9

➢ Insert M3 into L2-N (if no pre-assembled), then attach to L2-N with N5, lightly secure N5 with N11, N8. Do not tighten completely.

➢ Attach the other L1-N and L2-N by as the way as described above once this is done, go back and securely tighten all N8.
NOTE:

1. DO NOT OVER-TIGHTEN THE NUTS AND BOLTS AT EVERY STEP.
2. DO NOT SNAP IN THE COVER OF PLASTIC CAP UNTIL YOU HAVE FINISHED THE ASSEMBLY OF EACH STEP AND GO BACK TIGHTEN ALL OF THE NUTS AND BOLTS.

**Slide Assembly**

**Step 11**

- Attach X5-N to Y2
- Secure using Z6 and Z1
- Attach X4-N to Y2

*Note: Make sure that the bolt holes face up*
NOTE:
1. DO NOT OVER-TIGHTEN THE NUTS AND BOLTS AT EVERY STEP.
2. DO NOT SNAP IN THE COVER OF PLASTIC CAP UNTIL YOU HAVE FINISHED THE ASSEMBLY OF EACH STEP AND GO BACK TIGHTEN ALL OF THE NUTS AND BOLTS.

Step 12

- Attach X6 to X1-N and X2-N
- Secure each side using Z1, Z6 and Z4
- Attach X3-N to X1-N and X2-N
- Align holes and hold in position

Step 13

- Insert the end of X4-N into X1-N, secure using Z1, Z6, Z3 and Z5: in the same way, fix the other end of X4-N with X2-N.
- Insert Z2 into Z6 and insert into X1-N, X2-N and X3-N as shown.
- Secure with Z6 and Z4.
NOTE:
1. DO NOT OVER-TIGHTEN THE NUTS AND BOLTS AT EVERY STEP.
2. DO NOT SNAP IN THE COVER OF PLASTIC CAP UNTIL YOU HAVE FINISHED THE ASSEMBLY OF EACH STEP AND GO BACK TIGHTEN ALL OF THE NUTS AND BOLTS.

Step 14

Attach Y1 to X1-N and A7, secure using Z7, Z6 and Z3, Z5.

NOTE: Make sure to go back to check all hardware and securely tighten all bolts and nuts before using the playground equipment.

! WARNING: Do not let children use the playground equipment until it is properly assembled and anchored.
OPTIONAL ANCHORS

(NOTE: ANCHORS ARE NOT INCLUDED, SOLD SEPARATELY)

By anchoring your set with Ground Anchors, you will be able to move your

gym set at a future date. Either method is suitable for hard soil (clay, etc.).
If your soil is soft (sand, etc.), the corkscrew method is recommended. If
you wish to permanently secure your gym set, either type of anchor may set
in concrete. Ensure equipment is cemented, do not bury the legs more space
remains under the swinging plays. Be certain that all anchoring surface or below
ground level to prevent tripping.

Cork screw Anchors are not included

Be sure the swinging set is located on level ground.

Turn the corkscrew anchor into the ground until only the hooked end is above the
ground next to the leg.

Insert the hooked end into the bottom opening of the leg.

Ensure that the hooked end is secure in the leg opening.

IMPORTANT: ANCHORING, ANCHOR SOLD SEPARATELY

- Anchoring in concrete should be done for this swing set if it is not possible. In order to strengthen
the stability of this equipment, we strongly recommend consumers anchor this playset before using.

Anchors not included in this package. You may purchase the anchors in the newest department store.

- If the swing set is set up on grounds with sandy soil condition, it must be anchored with
concrete footing (concrete not included)

- Be sure the swing set is located in level ground

- Dig holes around swing leg tube as shown below in drawing. As you dig down and create a
larger diameter hole bottom

- Place 2 inches brick or gravel bed as shown in drawing below

- Use about 45lb of concrete per leg

- Cover concrete with dirt and protective surface material

- Allow about 6-7 days for concrete to dry properly
Note: The maximum fall height for this product is 6 feet. The minimum ground clearance between the bottom of the suspended plays and the playing or ground service must be 8 inches.

WARNING

PLEASE BURY THE LEGS OF THE SWING SET AS PER INSTRUCTION OR PURCHASE THE OPTIONAL ANCHOR. IF THE SWING SET IS USED WITHOUT PROPER ANCHORING, IT MAY BE DANGEROUS AND MAY TILT OVER.
MANUFACTURER'S LIMITED WARRANTY

SPORTSPOWER LTD. Warrants its GYM products for (180) days against defects in material, workmanship and rust painted parts which compromises the structural integrity of the product when used for the purpose intended, normal conditions, and provided it receives proper care and maintenance. Surface rust is not covered under warranty.

This warranty coverage extends only to the original purchaser with a receipt and non-transferable. All products for which a warranty claim is made must be received by SPORTSPOWER'S authorized service center, freight prepaid, and accompanied by sufficient proof of purchase during the warranty period.

This limited Warranty does not cover our products which: fail due to (1) normal wear; (2) abuse and neglect; (3) improper maintenance; (4) unauthorized repairs or alterations; or (5) are used for commercial or other income producing purposes; or (6) accidents and misuse.

All warranty repairs must be authorized by SPORTSPOWER Customer service before repairs are made.

IMPORTANT: A missing part is not considered the same thing as a defective part or unit. If a part is missing, there is no need to return the entire unit to the store. In order to obtain fast replacement parts or service as provided by this warranty, please call the number below.
